UNEMPLOYED

PROFILE

I am Chandra Prakash, but you can call me CP. I set out to advance my education abroad right after my graduation, but after three unsuccessful visa attempts, I was unable to achieve that goal by my final interview on November 21, 2024. Now, I am actively seeking job opportunities to kick-start my corporate career. I'm ready to make my mark.

EDUCATION

Jun 2018 - Dec 2022
Ibrahimpatnam, Telangana, India

Under Graduation(B.tech) — **GuruNanak Institution of Technical Campus(GNITC)**

I pursued my B.Tech in Information Technology on campus for 4 years, which taught me about life in my young adulthood.

Jun 2016 - Mar 2018
Hyderabad, Telangana, India

Intermediate — **Narayana Junior College**

As an intermediate student, I took the MPC course. I spent my teenage years learning how to make myself get used to complex and logical topics to face next in higher education.

Jul 2008 - Mar 2016
Mahabubabad, Telangana, India

Schooling — **Maharshi Vidyalaya High School**

Being funny and immature as I began to grasp the world's way of life, this is the best chapter in my childhood. Passed with flying colors.

INTERNSHIPS

Mar 2022
Hyderabad, Telangana, India

Internship (Student) — **RAM Innovative Infotech**

It's a training program in "Network Security" I earned a Grade "A".

Mar 2022
Hyderabad, Telangana, India

Internship (Student) — **RAM Innovative Infotech**

It's a training program in "Data Science & Machine Learning" I earned a Grade "A".

Certification

Aug 2019
Hyderabad, Telangana, India

Artificial Intelligence - Knowledge Representation & Expert System — **GNITC**

Pre-conference tutorial on "Artificial Intelligence-Knowledge Representation & Expert System" organized by ICICSE-2019.

Aug 2019
Hyderabad, Telangana, India

Social Network Analysis — **GNITC**

Pre-conference tutorial on "Social Network Analysis" organized by ICICSE-2019.

Mar 2019
Hyderabad, Telangana, India

Fundamentals of UI/UX — **Adobe Research & Development(GNITC)**

It's a different experience compared to other courses that I have encountered so far. Literally, I enjoyed learning how to create my own creative process through the course.

Jan 2024 - Sep 2024
Online Programm, Pune, Maharashtra, India

Data Science — **Coding Invaders**

I joined this course in Jan,2024. To learn the techniques and tools for Data Scientist or Data Analyst's position in corporate companies. When I am in the course, I learned a lot techniques mainly about Machine Learning. It's totally different from college experience. Have a real life project experience on each tool.

Projects

Jan 2022	**Traffic sign Recognition using Deep Learning for Autonomous**	**GNITC (Major Project)**

Driverless Vehicles

Hyderabad, Telangana, India

This is my major project as in team of four here my role is to create Documentation of project and Re-Presenting in-front of peers and examiner. We secured score A in project

Feb 2024	**Deciphering Sales Trends at Bharat Electronics**	**Coding Invaders(Google Sheets Tool)**

Online Programm, Pune, Maharashtra, India

I had downloaded details of project from Coding Invaders LMS Website and did work on my own, Using Google Sheets tools and Data analysis Techniques. Brought 98% accurate result of original output.

April 2024	**Marketing Campaign Analysis**	**Coding Invaders(MySql Tool)**

Online Programm, Pune, Maharashtra, India

In this project I have to find the previous transactions happened with or without Campaign Coupons. Also Marketing team need the growth and decline cases by conducting campaigns on the year by year basis categorizing geographically. Find no.of the combination of the product bought by the customers and In the different sectors(household, Industrial and Govt).

May 2024	**optimize the workings of production Lines are pouring the right**	**Coding Invaders(Statistics Techniques)**

amount of beverages with proper carbonation in a predefined time.

Online Programm, Pune, Maharashtra, India

In this project I took the data provided by company and followed the data analyst's analysis flow chart steps to find the out the issue and I found out the production line B has higer latency as compared to production line A. In Carbonation analysis usage of carbonation is very high which leads to spillage of 25% upon opening the bottle cap.

Aug 2024	**We aim to optimize the event experience for residents while**	**Coding Invaders(Python)**

efficiently utilizing available resources.

Online Programm, Pune, Maharashtra, India

In this project I have to provide the analysis on people in the housing society of their donations and contribution to the events and their demographic view of owners and rented and outsider in society and also recommend the best decorator and carters to the event based on their old customers rating and cost-effectiveness in their package they provide.
